

We provide expert design and manufacturing for *Made-to-Order* **Reception, Security, Trading,** and **Technology Desks,** and related **Workplace Furniture.**

Because every project has unique functional, technology, cabling, ergonomic, size and aesthetic requirements, we design the desk that meets those specific needs, and eliminate unnecessary elements that add cost.

Our extensive range of manufacturing and materials capabilities include laminates, hardwoods and veneers, marble, granite and other solid surfaces, stainless steel, aluminum and lacquers. Computer controlled manufacturing combined with highly skilled craftsmen assure the highest standards of precision fit and finish.

We'll work with you, with no obligation, to create a design that meets your specific requirements. Let us know the technology that needs to be accommodated, approximate dimensions or available space, suggested materials and general budget objectives. We'll respond with a detailed perspective drawing for review and comment. Or, we can modify one of our existing designs to meet your functional and aesthetic objectives.

*Curved stainless steel, lacquered wood and glass transaction counter convey the leading edge design attitude of this international publisher. Client: Conde Nast*

*A simple and elegant combination of rift oak structure, aluminum mesh grill and a 3" thick walnut transaction counter. Client: Braver Stern*

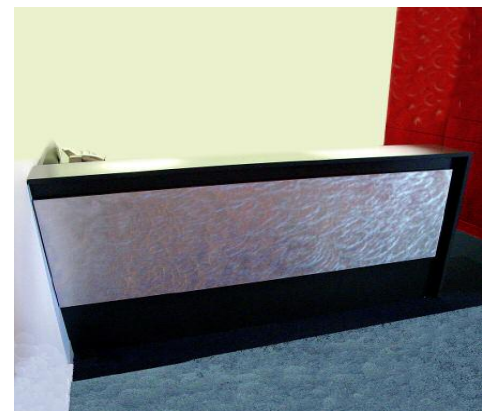

*Reception and Security desk supports a CCTV screen array on hinged, lift-up frames for access to cable management chase. Client: Rolex*

*Ebonized oak veneer contrasts with brushed aluminum and a glass transaction counter in this rectilinear desk design. Client: Unterberg Tobin*

*The subtle curve of this cost-effective reception desk sets off a Spanish management consultant firm's colorful logotype. Client: Mostrador*

*Framed in black Corian, a textured aluminum fascia refracts light in swirling patterns of color. Client: Speakerbus*
