

We provide expert design and manufacturing for *Made-to-Order* **Reception, Security, Trading, and Technology Desks**, and related **Workplace Furniture**. Because every project has unique functional, technology, cabling, ergonomic, size and aesthetic requirements, we design the desk that meets those specific needs, and eliminate unnecessary elements that add cost.

Our extensive range of manufacturing and materials capabilities include laminates, hardwoods and veneers, marble, granite and other solid surfaces, stainless steel, aluminum and lacquers. Computer controlled manufacturing combined with highly skilled craftsmen assure the highest standards of precision fit and finish.

We'll work with you, with no obligation, to create a design that meets your specific requirements. Let us know the technology that needs to be accommodated, approximate dimensions or available space, suggested materials and general budget objectives. We'll respond with a detailed perspective drawing for review and comment. Or, we can modify one of our existing designs to meet your functional and aesthetic objectives.

*Network Operations Command Center, supports 4 adjustable screen positions behind hinged anti-glare glass panel, shown in raised position. Client requirement was for operator to have line-of-sight above top of console to adjacent space.*

*Consoles are designed for precise fit around building columns.*

*Client: Fidelity Investments*

*Command Center Workstation for New Jersey gas distribution network. Mission-critical 24/7 operation requires height adjustable worksurfaces to accommodate 3 daily staff shifts.*

*All Workstations are positioned to maintain line-of-sight to curved operations status board at front of room.*

*Client: PSE&G*

*Network Operations Desk, with electrically operated push button control for sit/stand adjustability of worksurface and screens.*

*CPU support swivels, providing access from doors at front or rear of desk.*

*Client: Speakerbus*
